A complete solution for erosion and sediment control, stormwater consulting and construction services

OUR STORY

Emerald Site Services started in the Sacramento region in 2007 with stormwater compliance services and consulting, and thanks to a dedicated team and excellent customer service, our company has grown to serve multiple sectors in the construction industry. Emerald is a family-owned business with roots in the region dating back to 1982.

Austin Edwards leads the company as president and principal, overseeing the business and ensuring the company delivers the best service possible. Austin is an avid outdoorsman and also supports multiple charitable foundations and advocacy groups throughout Northern California.
